

URGENT PRODUCT INFORMATION

Unilever Food Solutions Urgent Recall

Summary Unilever Food Solutions has issued a recall for chicken products because it might be contaminated with *Listeria monocytogenes*.

Recall Date 11/22/2019

Company/Firm Unilever Food Solutions

Product Chicken Products

Reason *Listeria monocytogenes*

Illness *Listeria monocytogenes* is an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Although healthy individuals may suffer only short-term symptoms such as high fever, severe headache, stiffness, nausea, abdominal pain and diarrhea, *Listeria* infection can cause miscarriages and stillbirths among pregnant women.

Instructions Please isolate any affected product (see below table) and destroy it in a secure manner to prevent unauthorized consumption. If you have product stored out of the case and are unsure of the code date please destroy this product also. Your sales representative will be able to issue you credit. Please note that proper procedures must be followed and these cases may not be returned to your distributor. If you have further distributed any of these products, then you are responsible to notify all consignees of this recall.

The recall includes only the following items and lot codes that were distributed by Gordon Food Service.

Additional Recall Information

Unilever Food Solutions is recalling a limited quantity of Lipton, Knorr, and LeGoût chicken products that contain chicken from a supplier that is being recalled, due to potential contamination with *Listeria monocytogenes*.

This limited voluntary recall is being conducted with the knowledge of the Food Safety and Inspection Service (FSIS) of the United States Department of Agriculture (U.S.D.A). (Recall Number: 094-2019)

This issue was brought to Unilever's attention by suppliers that purchase ready-to-eat chicken from Tip Top Poultry, which issued a recall of its poultry products that were produced between January 21, 2019 and September 24, 2019 for possible *Listeria* contamination.
